

Summer CSA Program

Think of CSA, or Community Supported Agriculture, as a opportunity to partner with a farmer to support non-chemical, non-GMO, environmentally-friendly, sustainable agriculture. Community members buy a share, which provides the farmer with the financial resources to cover expenses. In return, members receive a box of wholesome food each week from the middle of July to the end of September.

Prairie Hollow Farm is a family run, sustainable farm located near Elgin, MN. Our vegetables and fruits are grown without chemical pesticides and herbicides, with special attention paid to heirloom varieties with greater flavor and nutrition. Three large hoop houses, unheated, provide space to grow vegetables during winter months.

Both the dairy cows and the beef cattle are pastured in the summer and fed baled hay in the winter. They do not receive antibiotics or feed additives that are pharmaceutical. We make a dozen varieties of cheese, hand crafting them according to artisan traditions.

Bread is made from organically grown heirloom wheat that is grown and milled on the farm.

Laying hens range freely in the pastures, so their diet is high in greens and insects.
